

Criterion 4 - Infrastructure and Learning Resources

Key Indicator – 4.2 Library as a learning Resource

4.2.1 Library is automated using Integrated Library Management System (ILMS), subscription to e-resources, amount spent on purchase of books, journals and per day usage of library.

Sl. No.	Description	Page Number
1.	Certificate of Authenticity issued by the principal	2
2.	Integrated Library Management System (ILMS)	3-46
3.	Subscription to E-Resources	47-125
4.	Payment receipt of Books and Journals	124-200
5.	Per day usage of library	201-210
6.	Library Book Circulation Details	211-216
7.	Drill Bit – Plagiarism Check	217-223
8.	List of Rare Books	224-230
9.	Geo tagged Photos of Library	231-240
10.	Certificate of Registration under the National Digital Library of India	241

Acharya Learning Resources Center

About Library: The Learning Resource Centre (LRC) which is the heart of the Institute. It provides one of the important academic services to the Institute. It is a well-equipped Learning Resource Centre, centrally located with easy access and does provide the right impetus for the intellectual growth of the students, teachers, research scholars & others around.

The Learning Resource Centre (LRC) – Library as the heart of the Campus, provides an ideal environment for intellectual inquiry with its multiple Study Spaces; Research Assistance; and Reading, Learning and Instructional Resources. The State-of-the-Art ICT facilities established provide much needed services to support excellence in Teaching, Learning, Research and Extension. The User focused facilities and services provide seamless access to resources and to evaluate Scholarly information to learn and create new Knowledge. At present, the LRC caters to over 15,000 Students pursuing Undergraduate and Postgraduate Courses, Research Scholars, and about 1,000 Faculty and Staff members. The LRC is housed on three floors with a area of 36,000 square feet accommodating various facilities, reading and learning resources, and seating arrangements for about 500 Users at any point of time. Wi-Fi, Internet access, Electrical plug-in facilities, etc., are provided at all Reading areas and Study carrels. The Virtual Learning Resource Lab and Study Carrels having 85 Apple Computers in networked environment provide Internet access, Digital Learning Resources and Online access to major E-Journals and E-Books on Engineering and Technology, Business and Commerce, Literature, Arts and entertainment, Computer Science and IT and so on which is available from VTU Consortium and DELNET. KOHA, an Integrated Library Management Software package is used for Library operations and resource sharing among the Acharya Institutes' Libraries. Centrally well protected Fire alarms, CCTV surveillance, and RFID technology provide much needed security. Qualified, experienced and well-trained Library professionals serve the user community with excellence and provide assistance in meeting academic and research information needs.

Vision: Provide Seamless Access to Information in a Networked Environment to Support Excellence in Teaching, Research and Life Long Learning.

Mission: Maintain high quality Print and E-resources, Disseminate Information and Knowledge, and provide need based Services to the Users to Find, Evaluate, Use and Create New Knowledge for Better World.

Motto: Nurturing Aspirations, Supporting Growth

Acharya Learning Resources Center-Services

Library Area: The LRC is housed on three floors with a carpet area of 5,574 sqm

Library Timings:

8.00 am to 10.00 pm on all working days,

9.00 am to 5.00 pm on Sundays and Holidays.

Seating Capacity: 500 Users at any point in time

Wi-Fi library: Wi-Fi is connected through the Campus network for User Access.

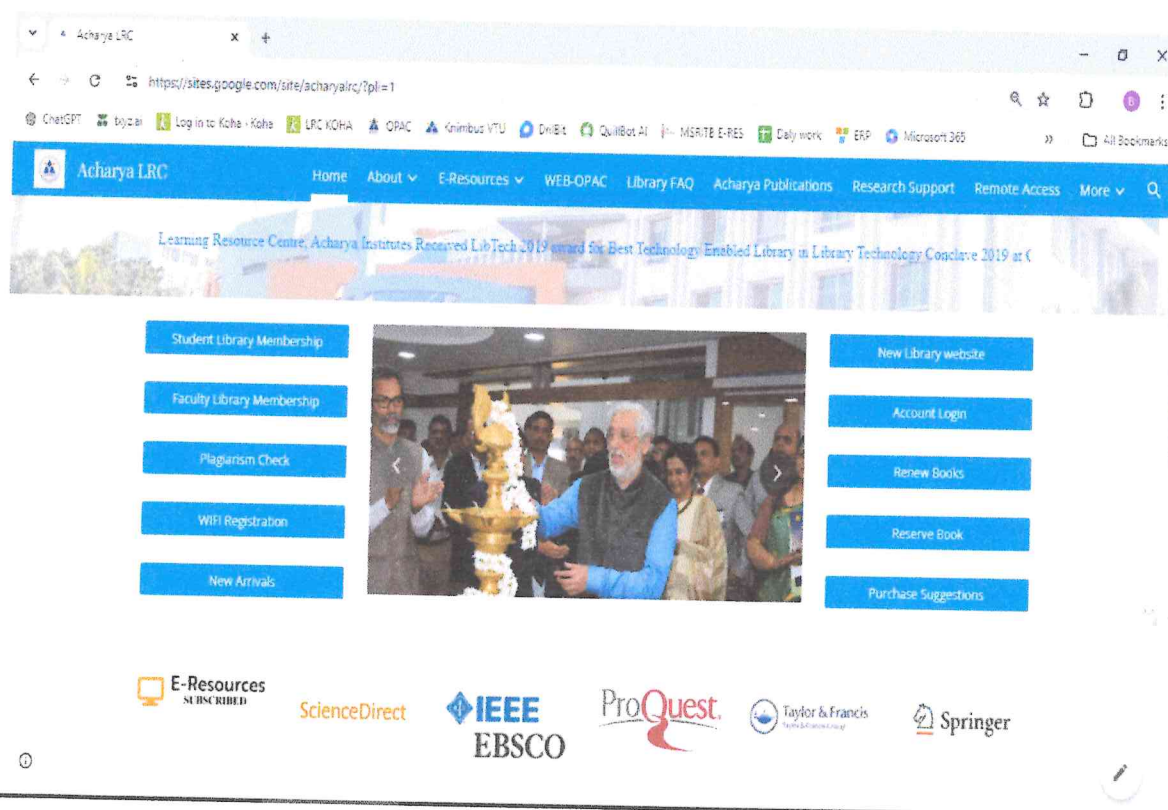

Borrowing Facilities

The following are the categories of borrowing facility for different user groups:

User Category	Borrowing Entitlement	Period of Loan
Students – Regular books	03	14 days
Students-Book Bank	03	01 Semester
Faculty	10	01 month
Supporting Staff	03	01 month
Meritorious Students	03	14 days
ST Students	03	01 Semester

AIT-Library Website

User-Friendly Dynamic Library Website: User-friendly dynamic website for increased use and awareness. A 'Single Window' to access all resources including Video Lessons/ Instructional material. Websites of Acharya Institutes Libraries linked to the LRC Website. The library Information folder and user feedback forms are linked. It is linked to social media - Facebook, Instagram, Twitter and Linked-In. Users' visits to the library website increased steadily over the period. Live chat for Library Users, and Users interact with the Web-master with suggestions and appreciation (<https://sites.google.com/site/acharyalrc/>).

*The Learning Resource Centre (Central Library) has State-of-the-Art ICTs, LMS, e-resources, which was inaugurated by **Dr. Anil Sahasrabudhe, Chairman, AICTE** on 26.11.2017*

Rules Related to Borrowing of Books

- Books and other documents borrowed from the library should be returned within the due date prescribed, Renewal can be allowed once three times, but books are not on demand by others. The physical presence of the book is a must.
- Book Bank books can be retained entire semester and these books should be returned immediately after completion of the exams. Another over-due charge will be applied as per the library rules.
- Every member of the faculty must get his/her books renewed once in a month. The defaulters will not be allowed to borrow the books till they return the earlier years' borrowings.
- Books from the special collection, Reference books, journals, Thesis & dissertation, and non-book materials are not to be issued outside the premises of the library.
- All the students shall return the books borrowed from the library before the commencement of the examination and get a No Dues Certificate from the Library. The name of the defaulters shall be reported to the Head of the Department and Principal to withhold the Admission Ticket to appear for the examination, result and marks cards.
- The employee of the college who resigned/voluntarily retired shall have to return all their borrowings & procure a "No Dues Certificate" from the library to enable the institute authorities to settle their salary/documents/retirement benefits.
- Books & other reading materials borrowed by any user may be called by the librarian at any time & should be returned within 24 hours or the period specified in such communication.
- Duplicate Membership RFID Card shall be issued only on the payment of Rs.100/- per card along with a justification letter for the loss.
- Every reader, borrowing library books/other documents shall be responsible for the safe custody and return of the same in an undamaged manner.

Rules Relating to Loss of Book

- As per the decision of the Library Committee meeting, lost books can be replaced with the following conditions;
- The same copy (title, author, edition, year, pages, etc.) of the book shall be replaced along with over-due charges, if any.
- The latest edition of the book is not allowed to be replaced.
- If the same copy of the book is not available in the market, then the User shall pay double the cost of the book along with over-due charges, if any. Old or second-hand books shall not be accepted.

General Rules

- Every reader/user entering the library should keep their belonging at the property counter. Use the property counter for safe keeping of the belongings with the locker key, which is available at the counter. While leaving the library the keys should be returned.
- Every reader/user shall present his/her Identity Card issued by the College while entering the library or on demand by the library staff.
- Every reader/user should enter his/her name & other details in the Entry Register maintained at the counter.
- Loud talking, conversations, discussions etc, are strictly prohibited in the library.
- Use of Mobiles within the Library premises is strictly prohibited and a penalty of Rs.100/- will be charged if a mobile is carried inside the library without switching off.
- Any problems regarding the library should be brought to the notice of the librarian/library committee members/Principal immediately.

LIBRARY AND INFORMATION CENTRE

Integrated Library Management Software: KOHA (22.11 v)

Library of Acharya Institute of Technology has an Integrated Library Management Software package KOHA, is used for Library operations and resource sharing among the users. KOHA is an open-source Integrated Library Management System (ILMS) that provides comprehensive automation solutions of library.

One of the key features of KOHA is its flexibility and customizability. The software allows libraries to tailor the system according to their specific needs and requirements. This includes customizable data fields, search options, and user interface settings. This adaptability makes KOHA suitable for libraries of all sizes, ranging from small community libraries to large academic institutions.

KOHA provides a wide range of functionalities and modules that cover all aspects of library management. It includes modules for cataloging, circulation, acquisitions, serials management, and more. Librarians can easily manage the cataloging process, create and edit bibliographic records, and generate reports. The circulation module enables efficient management of library items, with features like managing loan periods, reserves, and fines.

The automation capabilities of KOHA extend to the digital realm as well. Libraries can incorporate digital resources and provide access to e-books, e-journals, and other electronic materials. Users can search, browse, and download digital content through a user-friendly interface. KOHA also offers robust search functionality, allowing users to easily find resources using various search parameters. The system supports Boolean and advanced search options, making it easier for users to locate specific items. Additionally, the software supports multiple languages and provides multi-library support, allowing users to access catalogs from different libraries using a single platform.

PRINCIPAL
ACHARYA INSTITUTE OF TECHNOLOGY
SOLDEVANAHALLI, BENGALURU - 560 107

Collaboration and resource-sharing are facilitated through KOHA's interlibrary loan module. Libraries can request and share resources with other participating libraries, expanding access to a wider range of resources.

Another key advantage of KOHA is its cost-effectiveness. As an open-source software, KOHA is freely available for download and use. This allows libraries to save costs on purchasing proprietary library management systems and invest their budget in other areas of library development.

Overall, KOHA is a comprehensive library automation software that offers flexibility, customization, and cost-effectiveness. Its user-friendly interface, extensive features, and active community make it an attractive option for libraries looking to streamline their operations and provide enhanced access to resources for their users.

The library utilizes RFID technology integrated with KOHA to provide

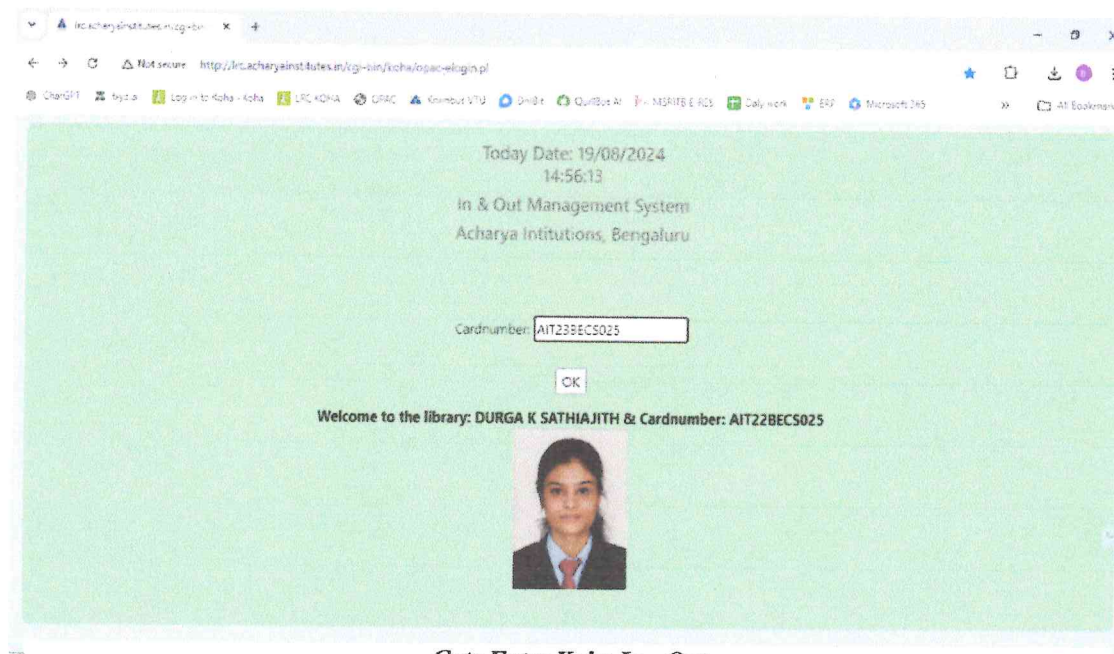

- Self-Check-in/Check-out Kiosk
- To issue RFID Smart Cards to all Users
- RFID Handheld Reader to find out missing book
- RFID Staff Workstations (Readers)
- Error-free easy Transactions and to save User/Staff Time
- Self-Check-in/out. More than one book Charged-in/Out at a single transaction
- Keeps standard operating procedures (SOP) and a library manual

Gate Entry (Koha In-Out Gate Register)

Integrated Library Management System (ILMS) of Acharya Institute of Technology uses KOHA In-Out web-based application to track patrons who enter and exit the library.

When a patron enters the library, the system scans their barcode at the entrance and records their arrival time and location. When they leave, the system scans their barcode again and records their departure time. The system can also track patrons who enter or leave specific areas of the library, such as the reading room or computer lab etc.

Gate Entry Koha In - Out

The library is automated with the help of a KIOSK system for self-check-in and check-out

Acharya Institute of Technology library facilitates Self-check-in and check-out kiosks in libraries allow patrons to borrow, return, and renew materials without staff assistance. After the issue of books through the KISOK, a printed receipt will be issued for confirmation of the transaction detailing the check-out date, and the return date deadline, which one needs to deposit at the circulation desk while leaving the library, the user will receive an email notification for each transaction through their Institute Email ID, KISOK can check-Out up to 6 book / Items in a single transaction based on the Circulation Criteria. Kiosks can be accessed using a variety of methods, including RFID cards.

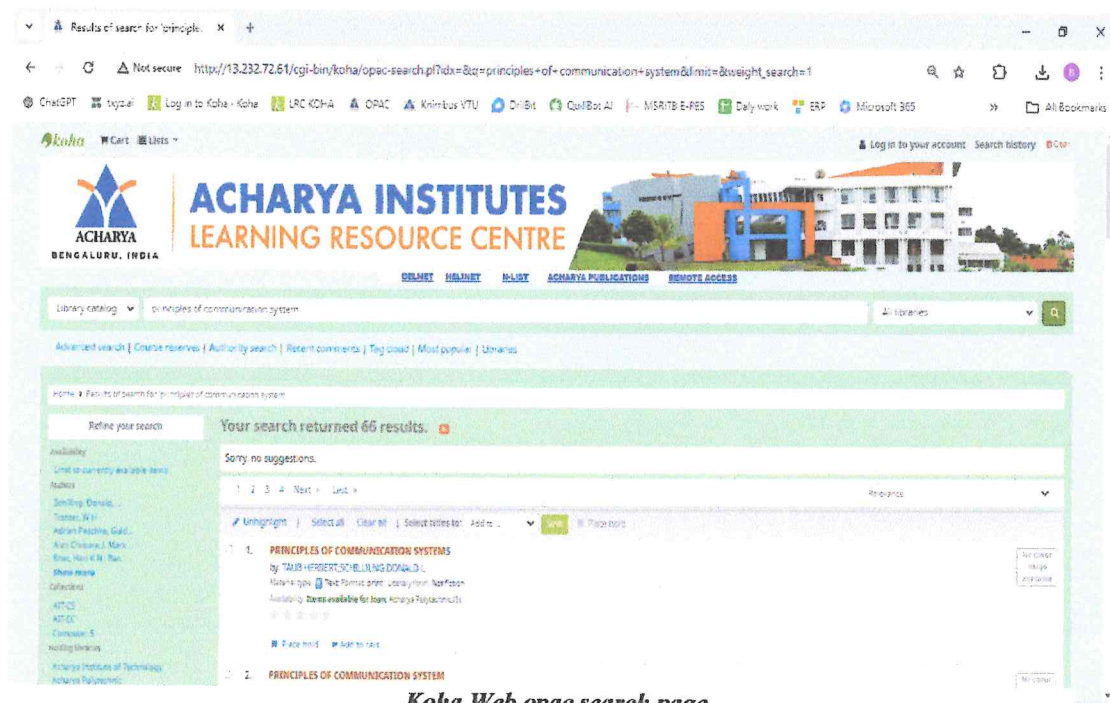

Kiosk – Self check-in-out

Accessing Library Resources through KOHA -WEB_OPAC

The library enabled Koha OPAC module that enables library users to search for materials, manage their accounts, and engage with the library. The OPAC interface provides a user-friendly platform for accessing library resources and services, including:

- **Search:** Users can search for materials by author, title, accession number, subject, and other fields.
- **Item availability:** Users can see the status of a particular book.
- **Account management:** Users can log in to their account and view their account summary.

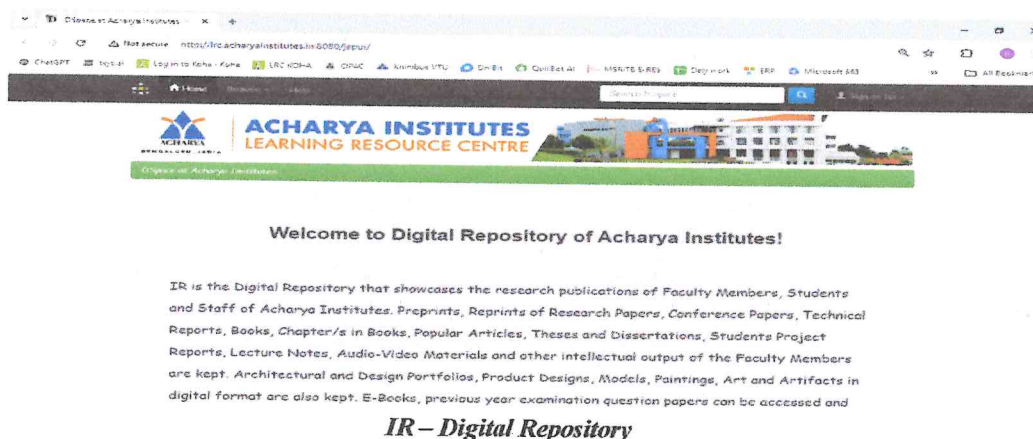

Koha Web opac search page

Institutional Repository (IR) – Digital Repository

Library uses DSpace to maintain its repositories. It has been created wherein Scientific and Academic staff can upload their publications using a web interface. Architecture portfolios, Designs, Paintings, Art and Artifacts, Models, Reports, Ph.D. Theses and Dissertations are also kept on IR. <http://13.232.72.61:8080/jspui/handle/123456789/20> IR linked to KOHA and accessible on OPAC / Online.

Integrated Library Management System: Process Automation

By the help of KOHA, automated the tasks such as cataloging, circulation, acquisitions, and reporting, providing a centralized platform for librarians to manage their collections, patrons, and services. An ILS can help libraries by:

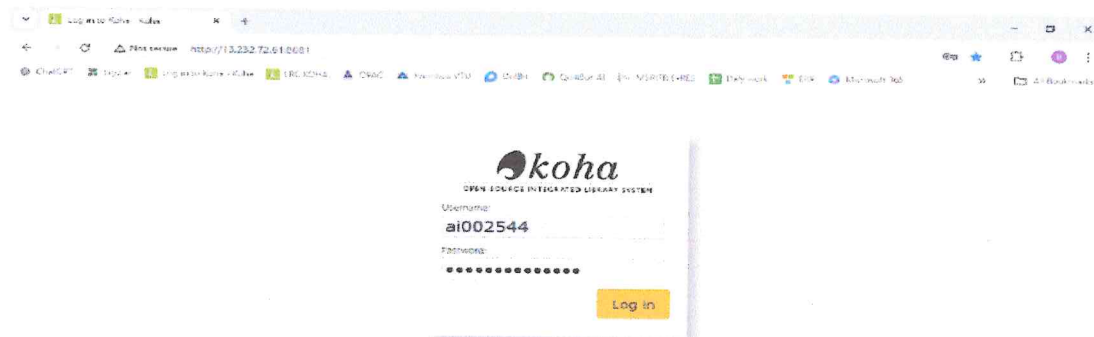

- **Automating processes** by automating manual processes, an ILS can save time and effort, and improve access to resources for patrons.
- **Tracking items** An ILS can track items owned, orders made, bills paid, and patrons who have borrowed.
- **Circulating and cataloging items** An ILS can help librarians and users circulate and catalog items, and track item movement.
- **Managing patron activity** An ILS can help manage patron activity, and interact with databases from other libraries or institution

The circulation report in KOHA provides real-time and historical data on borrowings, returns, and renewals. The report helps libraries analyze circulation trends, identify popular materials, and track overdue items. It is a valuable tool for librarians to make data-driven decisions and improve collections and services. The report can be customized to display data in various formats.

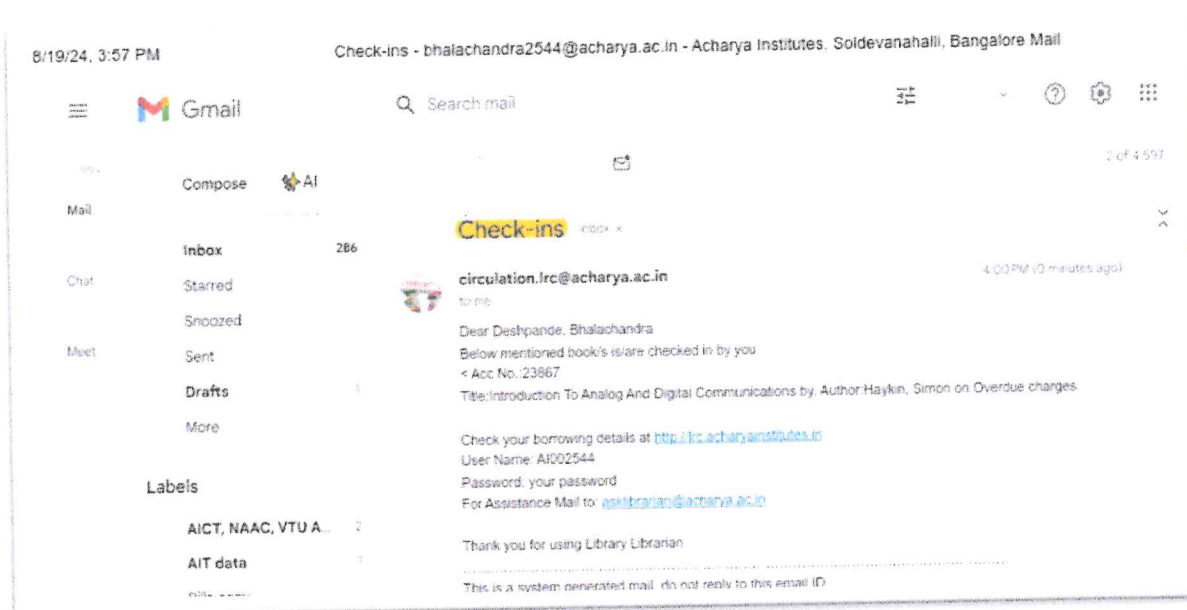

Integrated Library Management System: Email Alert

Koha Circulation Check-ins refer to the process of checking in borrowed items, such as books, returned by patrons. Koha allows libraries to set up automated email alerts for overdue items, reminding patrons to return materials on time. By integrating Koha Circulation Check-ins with email alerts, libraries can streamline their circulation process, reduce manual errors, and improve patron communication. This feature also enables libraries to send notifications to patrons when their items are due or already overdue, promoting timely returns and reducing fines.

DIGITAL LIBRARY MANAGEMENT: DSPACE

The library has DSpace (6.01v) open-source digital library software that enables institutions to create and manage digital repositories for the preservation, organization, and dissemination of various types of digital content. Developed by the MIT Libraries and Hewlett-Packard (HP) Labs, DSpace has gained widespread adoption by libraries, archives, and research institutions around the world.

One of the primary goals of DSpace is to provide a platform for the long-term preservation and accessibility of digital materials. It allows institutions to collect, store, showcase, and manage digital content such as research papers, theses, photographs, audiovisual materials, and more. With DSpace, libraries can create organized and easily accessible repositories, enhancing the visibility and impact of their digital collections.

DSpace offers a user-friendly interface that facilitates the submission and management of digital items. It allows librarians, researchers, and other contributors to upload and describe content using standardized metadata formats. The software supports various metadata standards, including Dublin Core, MODS, and METS, enabling interoperability and ensuring compatibility with other systems.

The search and discovery capabilities of DSpace make it easy for users to locate and access desired resources. It provides powerful search features, including full-text search, advanced faceted search, and browsing options. Users can repository by specific criteria, keywords, authors, or different collections, ensuring efficient and intuitive searching.

DSpace also supports different access controls and permissions to ensure that content is accessible only to authorized individuals or groups. It allows institutions to configure policies related to access restrictions, embargo periods, and copyright compliance. In addition to managing

Acharya Dr. Sarvepalli Radhakrishnan Road, Soladevanahalli, Acharya P. O., Bangalore-560 107

ACHARYA INSTITUTE OF TECHNOLOGY
SOLDEVANAHALLI, BENGALURU - 560 107

digital content, DSpace offers integration capabilities with other systems and services. It supports interoperability with institutional websites, library catalogs, other repositories, and external platforms.

Moreover, DSpace also provides analytics and usage statistics, allowing administrators to gain insights into the usage and impact of their digital collections. This information can be valuable for making informed decisions about, collection development, and outreach strategies.

Overall, DSpace is a robust and flexible digital library software that empowers institutions to create and manage digital repositories. Its user-friendly interface, powerful search capabilities, integration options, and long-term preservation features make it a popular choice for libraries and research institutions seeking to manage, preserve, and share their digital content effectively.

The screenshot shows a web browser window displaying the DSpace interface. The address bar shows the URL: <https://13.232.72.61:8080/jspui/browse?type=author&order=ASC&pp=20&value=Marigowda%2C+C+K>. The page header includes the Acharya Institutes Learning Resource Centre logo and navigation links. The main content area shows the search results for the author "Marigowda, C. K.". The results are displayed in a table with columns for Issue Date, Title, and Author(s). The table shows two results, both dated 2021-01, with the title "Android Based College Application For Students". The author(s) listed for both results is "Marigowda, C. K.". The page also includes a search bar, a login link, and a footer with the Acharya Institutes logo and contact information.

LIBRARY AND INFORMATION CENTER

EZPROXY:

It is a web proxy server used by libraries to give access from outside the library's computer network to restricted-access websites that authenticate users by IP address. This allows library patrons at home or elsewhere to log in through their library's EZproxy server and gain access to resources to which their library subscribes, such as bibliographic databases. The software was originally written by Chris Zagar in 1999. OCLC announced in January 2008 that it had acquired the product and was hiring Zagar as a full-time consultant for a year. It is a URL rewriting program, which works by dynamically altering the URLs within the web pages provided by the database vendor. The software has been purchased by more than thousands of institutions in over 100 countries.

THE PROBLEM

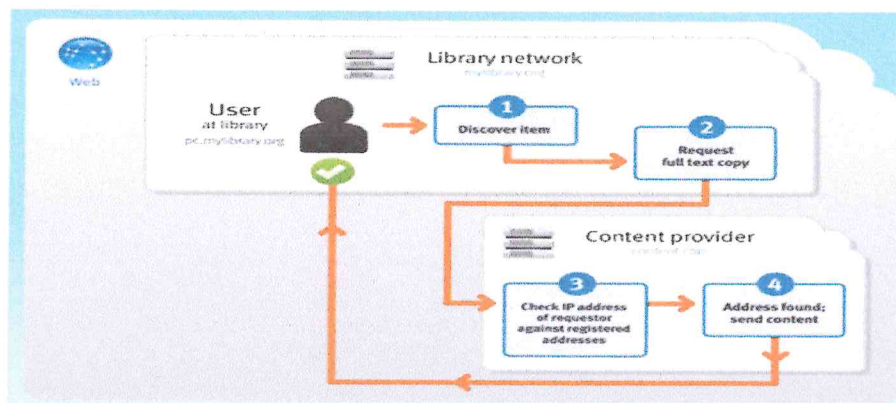

As information seekers have become increasingly accustomed to searching for and finding the information they need online in digital formats, libraries have shifted large portions of their budget toward licensing content from digital databases. While these licenses often provide patrons with the ability to search these databases within the library walls, they do not guarantee that patrons will be able to access that same information from other locations. **The two images below show the steps of information discovery, request, and retrieval both in and out of the library when a user is attempting to access licensed content from a third-party provider.**

PRINCIPAL

SOLDEVANAHALLI, BENGALURU - 560 107

STEPS OF INFORMATION DISCOVERY

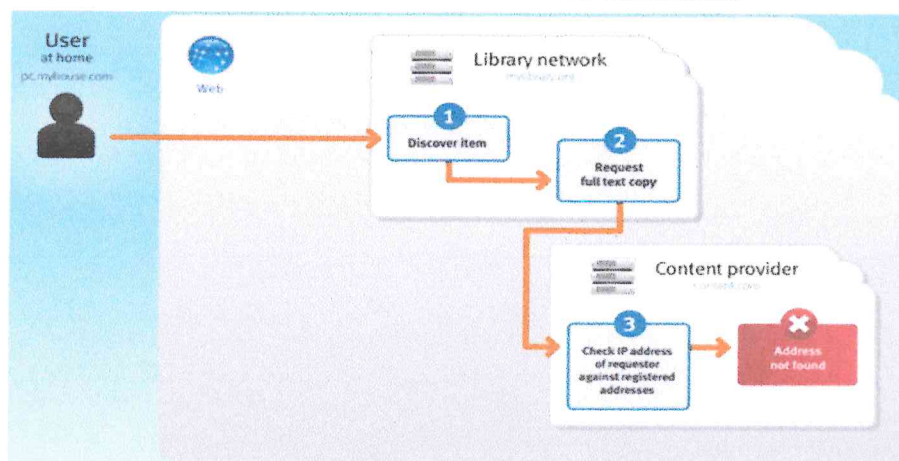

USER IN THE LIBRARY

In the library

From within the library, users have easy, ready access to the databases to which your institution subscribes. From your library's homepage, a user can search and discover items they need and request a full text copy. That information will be sent directly to the content provider. At this point, your library's IP address will be checked against registered IP addresses that are allowed to access content, and once the match has been made, the content will be sent back to the user at the library.

USER FROM OUTSIDE THE LIBRARY

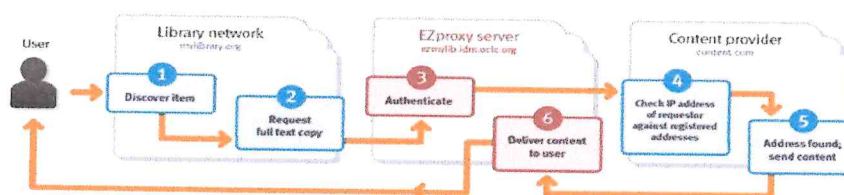

Email alert for students - Checkout

PRINCIPAL
ACHARYA INSTITUTE OF TECHNOLOGY
SOLDEVANAHALLI, BENGALURU - 560 107

Outside of the library, user access to your institution's databases is not guaranteed. A user can still access your library's network to search and discover the needed item. They can still place a request for that item. However, when that request reaches the content provider for authentication, the user's IP address is not the same as the library's since the search did not originate from a computer in the library, on the library's network. When the content provider fails to match the user's IP address with a registered IP address, the process stops, and the user receives an error message stating access to the content is denied. If libraries can provide access to these databases to users when and where they need it, then libraries can extend their services beyond the hours the libraries are open, save their users travel time, and provide new services to users who may need access from across town or around the world. Unfortunately, making licensed databases available to remote users can require a great deal of work. You need to be able to authenticate that a remote user is actually one of your authorized users, then provide some mechanism for these validated users to gain access to your licensed resources. EZproxy can address both of these needs.

THE SOLUTION

The solution

EZproxy works as an intermediary between your users and the databases they are trying to access. It confirms that your users are authorized to access your database subscriptions and delivers the e-content to them. When a user searches your institution's resources and finds e-content they would like to access, EZproxy authenticates their identity, then passes their request on to the content provider with EZproxy's IP address attached instead of the user's. The content provider then finds the EZproxy IP address as a match in its list of registered IP addresses for your institution, and passes the content back to your EZproxy server (the place where the content provider believes the request originated). EZproxy then delivers the content to the user. OCLC offers libraries two ways to use EZproxy to make their database subscriptions available to remote users.

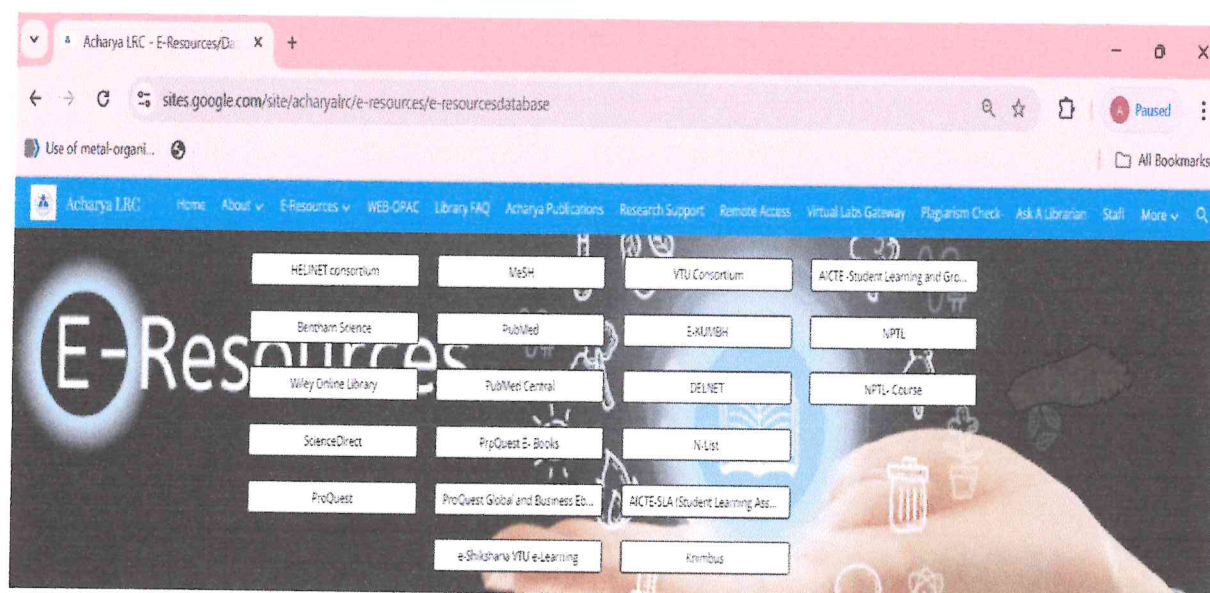

LIBRARY AND INFORMATION CENTER

Library Collection: The Library & Information Centre is having books, Print Journals, E-journals etc. The list is as follows

Library Holdings	
Books	85,503 (Volumes) 17,905 (Titles)
Print Journals	120
Journals - Back Volumes	1638
E-Journals	E-Book: - 15,000 E-Journals: -4,000
E-Books	13,000
Project Reports	2,000
Reference Sources	2,000
E-Books on CDs	1,000
Previous Question Papers	10 yrs.

E-Resources Package and Databases: (<https://ait.knimbus.com/user#/home>)

1. Elsevier (298 e-Journals).
2. IEEE ASPP (EBSCO) (198 e-Journals)
3. Springer Nature (690 e-Journals & E-Books).
4. Taylor & Francis (560 e-Journals).
5. Emerald Publishing (212 e-Journals)
6. ProQuest (4492 e-Journals and E-Books)
7. DrillBit Plagiarism Detection Tool

The following e-Resources are for the year 2023-24

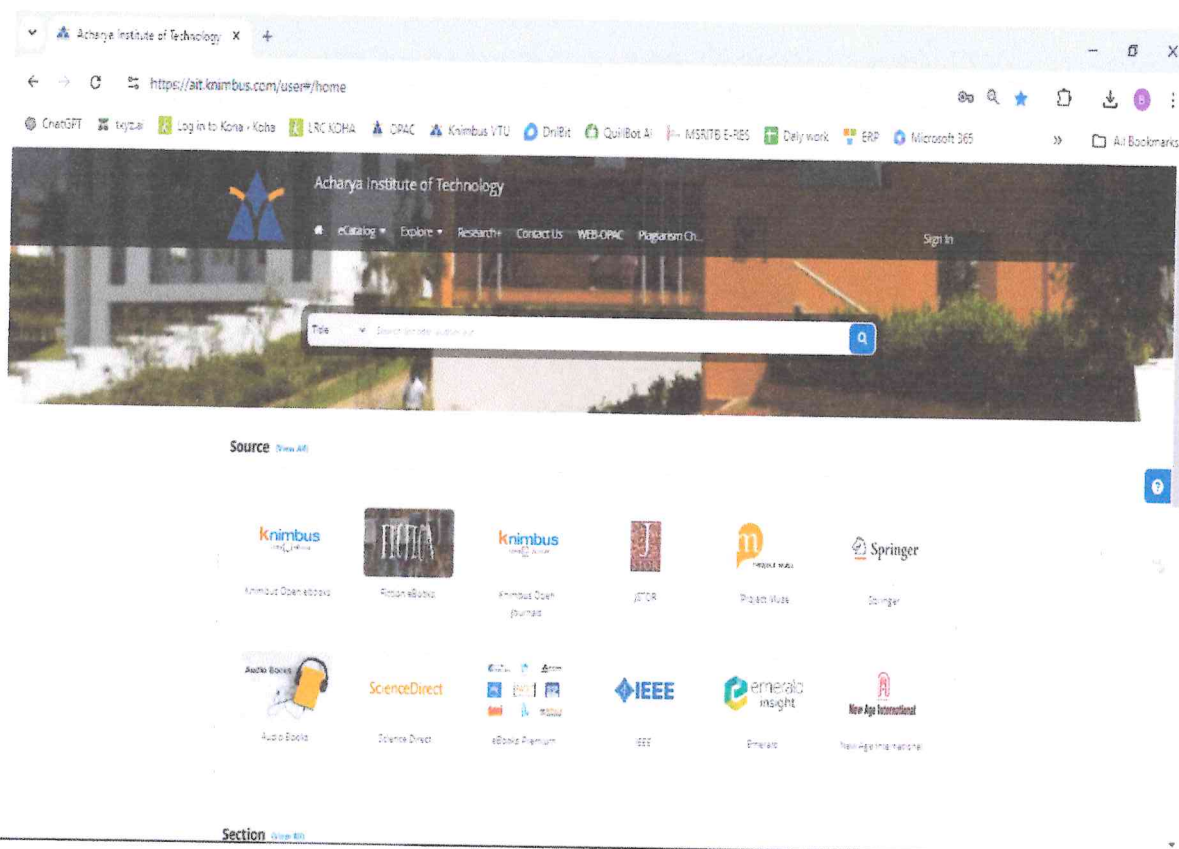

1. Elsevier (295 e-Journals)
2. IEEE ASPP (EBSCO) (108 e-Journals)
3. Springer Nature (690 e-Journals)
4. Taylor & Francis (560 e-Journals)
5. Emerald Publishing (212 e-Journals) (MBA Sites)
6. ProQuest (4492 e-Journals) (Architecture sites)
7. DriBt Plagiarism detection Tool (only 140 PG sites)
8. Knimbus Cloud hosted Remote Access services + Mobile app for VTU consortium e-Resources

Acharya LRC – Screenshot of E resource database

Introduction VTU Consortium (Remote Access)

In keeping with modern learning trends, the LRC offers students the flexibility to access e-resources from anywhere and at any time, ensuring that physical boundaries do not confine learning and providing access to e-resources from across the world.

- On Campus and Off Campus E-Resources access,
- Off-Campus, need to register in Knimbus Portal for Username and Password with Acharya Email ID.
- On Campus, IP-based access does not require any Username and Password for access

AIT – Knimbus home page

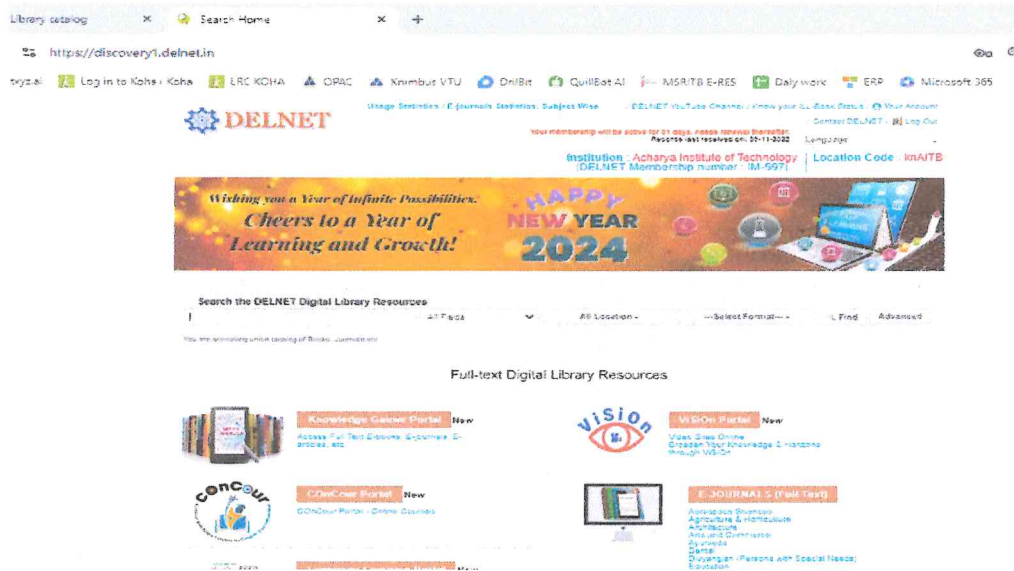

Institutional Members

DELNET has been actively engaged with the compilation of various Union Catalogues of the resources available in member-libraries. It has already created the Union Catalogue of Books, Union List of Current Periodicals, Union Catalogue of Periodicals, CD-ROM Database, Database of Indian Specialists, Database of Periodical Articles, Union List of Video Recordings, Urdu Manuscripts' Database, Database of Theses and Dissertations, sample databases of language publications using GIST technology and several other databases.

NPTEL materials

NPTEL (National Programme on Technology Enhanced Learning), is a joint venture of the IITs and IISc, funded by the Ministry of Education (MoE) Government of India, and was launched in 2003. Initially started as a project to take quality education to all corners of the country, NPTEL now offers close to 600+ courses for certification every semester in about 22 disciplines. Largest online repository in the world of courses in engineering, basic sciences and selected humanities and management subjects

YouTube channel for NPTEL – most subscribed educational channel, 1.3 billion views and 40+ lakhs subscribers

More than 56000 hours of video content, transcribed and subtitled

Most accessed library of peer-reviewed educational content in the world

Translation of more than 12000 hrs of English transcripts in regional Indian languages

Non-Visual Desktop Access Application

NVDA, Non-Visual Desktop Access

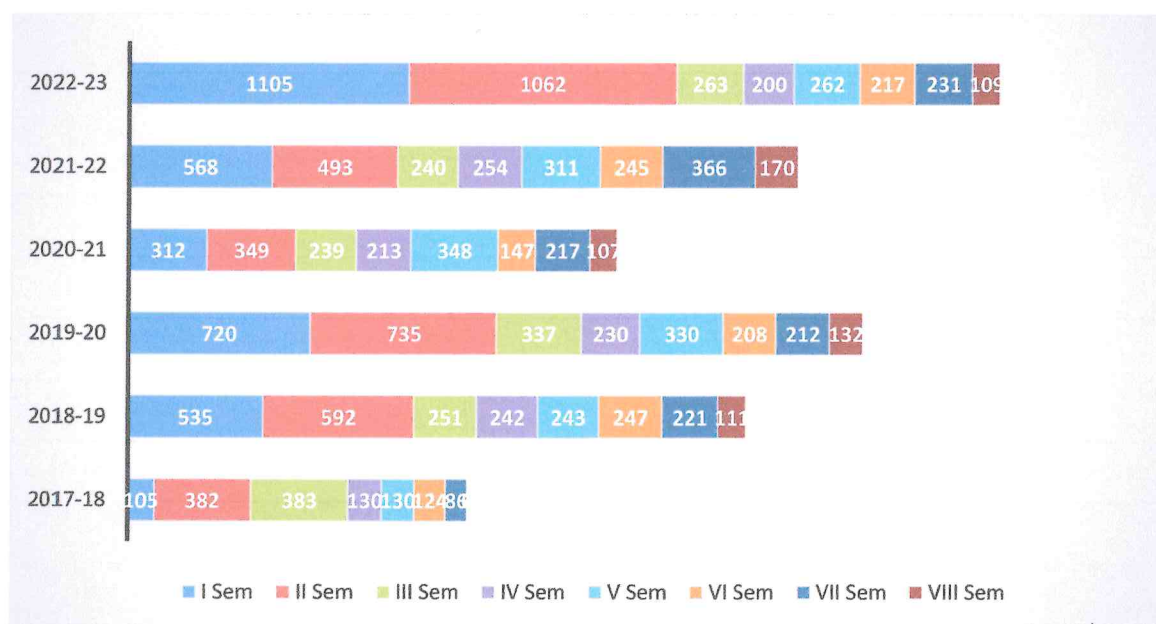

NVDA (Non-Visual Desktop Access) is a free, open-source screen reader for Microsoft Windows. It provides non-visual access to the desktop, allowing users who are blind or have low vision to interact with their computer. NVDA reads aloud the text on the screen, describes the layout and actions, and offers navigation features to help users browse and use their computer independently. With NVDA, users can perform tasks such as browsing the internet, checking email, and using productivity software, making it a valuable tool for those who need non-visual access to their computer.

Turnitin Report

In addition to the VTU consortium similarity application. The institute offers another application for similarity report checks called Turnitin, which ensures the quality of research publications. Faculty and student members must submit their research documents through the designated fields in the Google Form. The library will then review the report and send it back, along with an AI-generated report, in the same email.

DELNET/IM-597/knAITB/MEM/2020

Sub: DELNET Membership Renewal

Dear Mr. Ramachandra,

We acknowledge with thanks the receipt of ₹ 13,570 (₹ Thirteen Thousand Five Hundred Seventy only) received through NEFT dated 25.11.2020 made towards the DELNET Annual Institutional Membership Fee for the period 7.11.2020 to 6.11.2021. The receipt no. 62529 dated 26.11.2020 is enclosed for the office records.

You are requested to access DELNET databases through the World Wide Web using the following procedure:

Web Address: <http://www.delnet.in>

Click onto "New Discovery Portal". Since the IP address provided by you is registered with us, you should be able to open the landing page without login prompt. Please let us know if you encounter any difficulty.

We are also glad to provide the following login & password for accessing DELNET remote:

Login : knaitb
Password : ait597

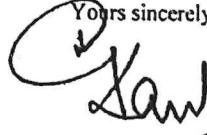

Kindly note your Inter Library Loan (ILL for Books) Password is "knaitb" to be used while registering a request. You are also welcome to send us the bibliographical references at sangs@delnet.ren.nic.in, sangskaul2003@yahoo.co.in for the resources needed by you. We will try our best to locate these resources. Also, a complete user manual on how to access DELNET online databases is available at the Discovery Portal.

I would like to mention that DELNET provides access to more than three crore catalogue records of books, journals, articles, etc. through Discovery Portal and also more than one crore and fifty lakh full-text e-books, e-journals & e-articles through Knowledge Gainer Portal. DELNET also provides Delplus software free of charge for library automation purpose. DELNET Guest House facility at New Delhi can also be availed by member-libraries on payment basis.

I would also like to inform you that DELNET shall be glad to organise a one hour webinar on DELNET Networked Resources and Services at a mutually convenient date and time for the students, faculty, researchers and scholars of "Acharya Institute of Technology, Bengaluru, Karnataka". It will help in the effective utilisation of DELNET resources and services.

I am enclosing a poster on DELNET and a Certificate of Membership. Please kindly let us know if you wish to get any books on ILL or the journal articles.

With kind regards,

Yours sincerely,

Sangeeta Kaul

Sub: Periodical Subscription Renewal for AIT Library for the Year 2022-23

Ref:

Dear Sir,

The indents received from the Faculty / Head of the departments for the renewal of subscription of print journals and magazines for AIT Library for the year 2022-23, and the renewal proposal has been prepared. As per the indents, **75 print journals** and magazines are to be renewed for the current academic year. The quotations were requested from the below mentioned vendors for supply of the same.

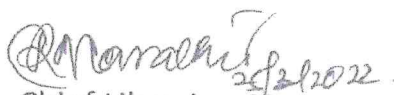

1. Surya Infotainment Products Pvt. Ltd., Bangalore

2. Informatics Publishing Ltd., Bangalore ✓

Out of two vendors the Surya Infotainment Products Pvt Ltd. Bangalore denied to quote the renewal of subscription of journals, and Informatics Publishing Ltd., Bangalore quoted for 75 Journals / Magazines, the total amount may come around **Rs. 261233/-** (Rupees Two Lac Sixty One Thousand Two Hundred and Thirty Three Only) all the relevant papers are enclosed herewith for your kind perusal. Hence, requested to approve the same enabling renewal of subscription.

Thanking you,

Yours faithfully,

Chief Librarian AI

Dear Professor,

Greetings from NPTEL!

Thank you very much for your interest. We are happy to help you.

Please refer <https://nptel.ac.in/harddisk> and kindly send us 15 TB three (5 TB + 5 TB + 5 TB) external hard disks. With this, we can copy whole NPTEL course contents of all disciplines. Since there is no eligibility criteria for any of the NPTEL courses and anyway you are copying the contents, it will be more useful to students if the whole contents of all disciplines are copied.

Kindly fill in the details in the copyright form and content copying request letter, obtain the signature by the concerned authority and please send it along with the hard disks.

Please mention the external Hard disk's Serial Number and Capacity clearly in the letter.

Kindly fill the google form shared here https://docs.google.com/a/nptel.iitm.ac.in/forms/d/e/1FAIpQLScx_67oNxqSqlCSwA5Wtp23cthZBgDRotDPbsVVjo3J3AYPPw/viewform?c=0&w=1

Your college / institute representative may come in person and hand over the hard disk at our office or you can send it through a reliable courier agency packed well along with the documents to the address given below:

NPTEL Administrator,
IC & SR, 3rd floor, IIT Madras
Chennai - 600036, Ph : 8473837425, 8056208422

PRINCIPAL
ACHARYA INSTITUTE OF TECHNOLOGY
SOLDEVANAHALLI, BENGALURU - 560 107

Copying the contents to the hard disk is free of cost. Copying may take few days time as we follow the queue process.

Once the copying is completed, we will inform you. You may collect the same from the NPTEL office through your college / institute representative with an authority letter or you can arrange a return pick up through your courier agency prepaid at your end.

Kindly revert if you have any further queries.

Many Thanks & Warm Regards,

Sagar R

External Email

Dear Kavitha madam,

I hope this message finds you well!!

Achary Institute of Technology, Soladevanahalli Hesargahatta main road Bangalore, is one of the leading top rated engineering colleges in Bangalore, it is approved by AICTE New Delhi and affiliated to Visveswarayya Technological University, Balagavi. Accredited by NBA and NAAC.

As discussed in today's phone conversation, we are planning to have NPTEL videos for our engineering and management students for education / learning purposes, even if it is insisted on by NAAC & NBA affiliated bodies. Please let me know the policy and procedure for the same immediately and NAAC may expect to visit at the end of this month.

Thanks and regards

Chimmoji Ramachandra, P.hD

PLAGIARISM CHECKER

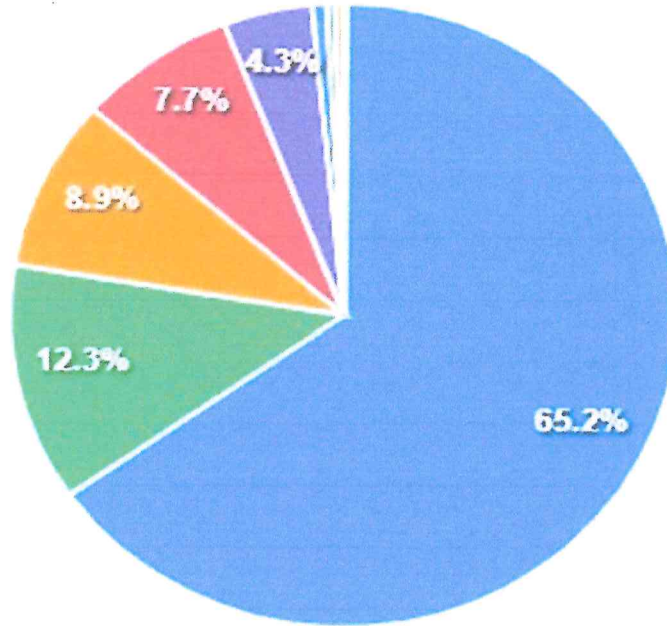

PLAGIARISM CHECK

Acharya Institute of Technology, in collaboration with VTU, utilizes the plagiarism detection tools Turnitin and DrillBit for publications, reports, and dissertations. Turnitin was employed for plagiarism checks during the academic years 2019-20, 2020-21, and 2021-22, while DrillBit was used for the academic years 2022-23 and 2023-24.

Abstract

The world is facing a significant health crisis due to the COVID-19 pandemic. The disease has spread globally, causing millions of deaths and economic losses. In this paper, we propose a novel approach for detecting viral infections and cardiovascular diseases using Internet of Things (IoT) and Artificial Intelligence (AI) technologies. The proposed system consists of a network of sensors that collect data from various sources, including wearable devices, smart home appliances, and mobile phones. This data is then processed using machine learning algorithms to detect anomalies and predict potential health issues. The system is designed to be scalable and adaptable to different environments, making it suitable for use in both developed and developing countries. The results of our experiments show that the proposed system is highly effective in detecting viral infections and cardiovascular diseases, with a sensitivity of 95% and a specificity of 90%. This work highlights the potential of IoT and AI technologies in improving public health and reducing the impact of infectious diseases.
